Easy to Obtain CAD Models

BOM lists can be generated from assembly data, quoted and placed into a cart.

- V Unit Price and Shipping Date can be quoted together
- \checkmark The entire output can be exported as a CSV file

Unit Price/Shipping Date, etc. are displayed

How to Update

Note

If you have customized the proxy settings or property names, please check these settings before installation.

Step 1 Check your Proxy Settings

Open the settings page at the top right corner of RAPiD Design Home Page. If you are using a proxy server, please note the values in the "Rapid Design Settings" tab.

Rapid Design Top Page

Rapid Design Settings

Step ② Set your Property Names

Open the settings page at the top right corner of RAPiD Design Home Page.

Click "Settings" in the top right corner of Rapid Design Home Page. Customize the property names to your company standard, then export these settings files by clicking "Export Settings."

Installing the latest version (4.0.0)

Uninstall the current Rapid Design version

Before you install the latest version, uninstall the current version you are currently using.

1 : Open the Control Panel and select Uninstall a program. You may need to have administrator privileges.

Download the latest installer

Download the latest installer from the following URL (ZIP file)

https://uk.misumi-ec.com/en/r/rd_setup_sw_uk/

Install RAPiD Design Version 4.0.0

After extracting the file, <a>MisumiRD_SW_setup_md.exe click "Install" to begin. After installing, log back in and continue from where you left off.

2. Select "MiSUMi RAPiD Design" and uninstall it

Open the settings page at the top right corner of RAPiD Design Home Page. If you use a proxy server, please configure the proxy settings in the settings screen in the "Rapid Design Settings" tab.

Rapid Design Settings

Rapid Design Top Page

If you have restricted communication outside of the company, please set up access to the following three domains: https://*.misumi-ec.com/ http://*.misumi-ec.com/

Open the settings page at the top right corner of RAPiD Design Home Page. Import the setting file by clicking "Import settings" to update the previous settings. The previous settings will be updated.
