The THM labels offer brilliant printing quality thanks to the thermal transfer technology. Different materials and the user-friendly printing system M-Print® PRO under Windows optimise all labelling efforts.

- High-quality polyester labels in different colours
- Due to their flexible material and the thick adhesive layer, the THM GEW can be used on angled or round objects such as cables or hoses
- Roll-packaged THM ET S7 can be used to label the Simatic 200S, S7-300 and S7-400 modules from Siemens
- Labels are automatically positioned in the printer for perfectly centred prints on each label.
- Labelling with the THM MultiMark or THM MultiMark Plus thermal transfer printers
