## **Nuts for Aluminum Extrusions - Overview**

For 5 Series (Slot Width 6mm)

## **Nuts for Aluminum Extrusions - Bulk Packages** For 5 Series (Slot Width 6mm)

## Nuts for Aluminum Extrusions - Overview MISUMI offers variety of Pre-Assembly or Post-Assembly Insertion Nuts for Aluminum Extrusions. Select an applicable type specific to your application. Pre-Assembly Insertion: Insert from the slot ends Post-Assembly: Mountable from slots after assembly. before assembly. Large width causes less plays in the slots, making screw Ó tightening easy. Pre-Assembly Post-Assembly Photo Features Material Page Material Туре Page Steel Stainless Steel Single Item Package Steel Stainless Steel Single Item Package Most standard and economical products. Standard P.559 P.558 P.562 P.558 Can be connected temporarily in combination with ptional stoppers. Temporary Holding (Ball Spring) Can be moved in the extrusions smoothly. Temporary P.560 P.558 P.563 P.558 olding is repeatedly possible Temporary Holding (Leaf Spring) Secure temporary holding with springs on both sides. -P563, 564 P564 --Temporary Holding (Resin Stoppe Resin stopper on outer circumference prevents 0 P560 aluminum extrusions from being scratched when -nting temporari Post-Assembly nsert the nut into the exrusion and turn it in the slot. P.562 -Rotationa arge nut width prevents plays. ncluded set screw enables nut fixing. Convenient where panes and covers are removed frequently. With Lock P.561 P.564 Reduces loosening due to vibrations caused by transfe Thread Locking P.559, 560 2 P.562, 563 or equipment moves. One-time use and repeated use --Adhesive Typ ypes are available. sable with narrow pitch when multiple nuts are lined Compact (Short Nuts) P.561 P.561 P.564 P.564 in the slots. -40% shorter than the standard width) Square Nuts heet metal type: more economical than standard nuts. P.561 P.561 Screw Integrated lequires less time for screw tightening 0 P.565 P.565 Workpieces such as Linear Guides are mountable with P.566 P.566 Lona Nut -red pitches
