## **Integrated Casters & Leveling Mounts**

Standard, Conductive, Side Mount

Applicable screws and nuts are common to M6 and M8.

All the casters swivel 360°

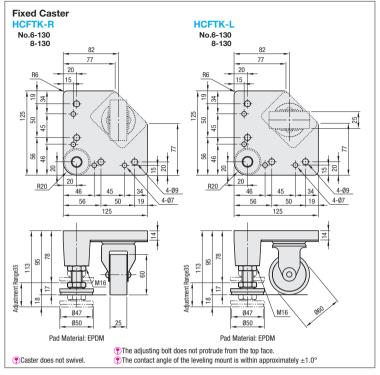

The adjusting bolt does not protrude from the top face.

The contact angle of the leveling mount is within approximately ±1.0°

• When moving the unit using the casters, raise the leveling

mounts completely.

Mounting height of HCFT6-130, HCFT8-130, HCFTK6-130 and HCFTK8-130 is the same, which enables combined use in parallel. The stated allowable load is for the caster. Consider the allowable load of the leveling mount to be the same.

	SWIVEI	SHCFTD	•					3000-23		HINT I SINO-0				

Pad and caster are made of stainless steel (EN 1.4301 Equiv.).
The stated allowable load is for the caster. Consider the allowable load of the leveling mount to be the same.

Part Number - (SET, BL)

Reference: Combined size with aluminum extrusions (MISUMI) (for mounting position, check each dimension.)
